

ATM

2023

ATM emulator

ATM presents a real ATM emulator. Uses for Put and Cash Draw money operations. On the main screen you can see how much bank notes in each Cassette stored in the current moment. Each Cassette contains own bank notes denomination.

For Put money you should to do next steps:

1. Press 'Put money' button.
2. Enter a count how much bank notes you want to put with needed denomination. For example if you want to put 3550 amount, you can set 'Denomination 1000' = 3, 'Denomination 500' = 1, 'Denomination 50' = 1.
3. Press 'OK' button.

For Cash draw money you should to do next steps:

1. Press 'Cash draw' button.
2. Enter a money cash amount (3550 for example) for a cash draw operation.
3. Choose a denomination. If ATM could not makes a cash draw operation with selected denomination, it will makes cash draw with lower denomination.
4. Press 'OK' button.
